How to access and/ or upload data to the ICCA GPS Chemical Information Portal

Step by Step:

- » Go to ICCA webpage (<http://www.icca-chem.org/>)
- » Click on button in upper right hand corner “GPS Chemical Portal”

A screenshot of the ICCA website homepage. The top navigation bar includes links for Home, About us, Responsible Care, Priorities, Policy, News, Events, Publications, Contact us, and GPS Chemical Portal. The 'GPS Chemical Portal' link is highlighted with a red rectangular box, and a red arrow points to it from the right. Below the navigation bar, there is a large image of two scientists in a lab. To the right of the image is a section for the 'Long-Range Research Initiative'. Below this are several smaller sections: 'Our Priorities' with sub-sections for Responsible Care, Energy & Climate Change, Global Product Strategy, High Production Volume, and Long-Range Research Initiative; 'Latest publications' with two entries; 'In Focus' with a section for 'International Year of Chemistry: Let's Celebrate Chemistry in 2011'; and a quote from ICCA President Andrew Liverts. At the bottom right, there is a section for 'Forthcoming events'.

- » Click on “want to register” button in lower left hand corner of the “GPS contributor access”

» Fill in Registration Form and press submit

- » You will receive an email with your login and password.
- » Log on to the Portal as contributor
- » Now you have different options on how to upload a Safety Summary

» Version 1:

Your Safety Summary is not allocated to a specific CAS number, because it's a mixture or a product that has no CAS number – or – because the CAS number was not included in the ICCA database.

Please do not use version 1 in case there is a CAS number allocated to your substance as the search will not find the safety summary based on the CAS identification.

- » On the left hand side within the contributor column you will find a button that reads “Safety Summary upload”, click on it
- » Nor you can either upload the Safety Summary by providing the link to your corporate website where you've published the summary already – or alternatively – you can upload the PDF version directly to the ICCA portal

The screenshot shows the 'Safety Summary Upload' interface. On the left, a navigation menu includes 'Welcome back Melanie Bausen' and a button for 'Safety summary upload'. The main content area is titled 'Safety Summary Upload' and contains instructions: 'As well as uploading Safety Summary Sheets to specific CAS references, contributors can also upload Safety Summary Sheets related to a specific product name or product category. Simply complete the form below, either noting the URL destination of the file you wish to reference (including www.) or upload the file directly. Specific language flags (currently English only), product names and product categories can then also be assigned to the Safety Summary in question. Once completed, simply select submit.' The 'Upload' form includes the following fields: 'Link:' (text input), 'File:' (text input with a 'Durchsuchen...' button), 'Audience:' (dropdown menu), 'To Product Name:' (text input), and 'To Product Category:' (dropdown menu). A red 'SUBMIT' button is at the bottom of the form.

» Version 2:

Your Safety Summary is allocated to a specific CAS number

- » Click on the “GPS Chemical Information Search” button
- » Type in a specific identifier such as CAS (preferred), chemical name, synonym and press “submit”. Please use only 1 identifier per search, in case they contradict – there will be no result.

Chemical Information Search

To promote greater transparency, the chemical industry will share information about marketed substances with interested stakeholders. This portal is intended to offer public access to relevant information on chemicals.

Search substances (Search by one of the options below)

Chemical Name:

Chemical CAS Number:

Chemical EINECS Number:

Synonym:

Brand/Product Name: (optional)

Product Category: (optional)

Organisation or Company Name: (optional)

[Clear search entries](#)

- » Select the CAS / Chemical you want to upload information for in the table below the search mask

Formaldehyde

(Substance Summary) [Back to search results](#)

CAS number: 50000

EINECS number: 2000018

Synonyms: ALDEHYD MRAVENC, ALDEHYDE FORMIQUE, ALDEIDE FORMICA, BFV, FA, FANNOFORM, FORMALDEHYD, FORMALDEHYDE, FORMALDEHYDE (GAS), FORMALDEHYDUM, FORMALIN, FORMALIN 40, FORMALINA, FORMALINE, FORMALITH, FORMIC ALDEHYDE, FORMOL, FYDE, HOCH, IVALON, KARSAN, LYSOFORM, METHALDEHYDE, METHANAL, METHYL ALDEHYDE, METHYLENE GLYCOL, METHYLENE OXIDE, MORBICID, NCI-C02799, OXOMETHANE, OXYMETHYLENE, PARAFORM, RCRA WASTE NUMBER U122, SUPERLYSOFORM.

Safety summary sheets: [Evonik Degussa Corporation](#), [Ashland Inc.](#)

MSDS:
(Material Safety Data Sheet)

Example of brand/product name: Formaldehyde

Example of product category:

Detailed substance information

UPLOAD INFORMATION FOR THIS SUBSTANCE

- » You will be able to see other information already uploaded to the CAS number. In order to upload additional information click on the “upload information to this substance” button in the lower right hand corner of the page

Detailed substance information [UPLOAD INFORMATION FOR THIS SUBSTANCE](#)

Add new substance information for 50000

Brand/Product name used for this substance:

Product category:

Type of information you wish to upload:

GPS Safety Summary

Provide link to safety summary on company website:

Choose a language (Optional):

Upload safety summary as PDF document (Optional):

Material Safety Data Sheet

Hazard Information

Please agree to Terms & Conditions, please read.

- » Enter Brand and / or Product Name
- » Specify the type of information you would like to upload e.g. Safety Summary, MSDS, other type of information like robust study summaries.
- » Now you can either upload the Safety Summary by providing the link to your corporate website where you've published the summary already – or alternatively – you can upload the PDF version directly to the ICCA portal
- » Agree on Terms and Conditions
- » Press submit
- » Now your information is online at the ICCA GPS portal. You are able at anytime to delete, change, revise it – no one else can but you.
