- Dynamic and Static

-Packaging

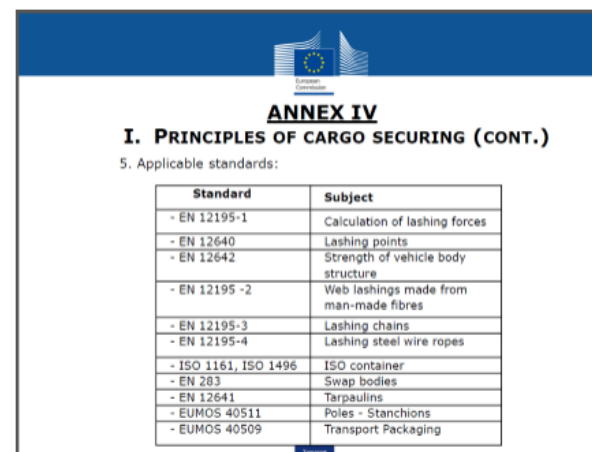

Enforcement

-Harmonization of Road Checks

- Agreed by EU Ministers and will be part of EU legislation

- The Load Securing standards to be checked against will be the EN Standard

WHAT ABOUT IMPLEMENTATION

Load Securing

- Have we tested our packaging
- Do we have load securing arrangements tested/ developed
- Do we have clear Load Securing Instructions

Practical Case

- Producer has outsourced the logistic activities to LSP
- LSP put the product on the Trailer
- The trailer is contracted by the Producer

**-Trailer loses its load on the highway,
passing cars hit and persons injured**

-Who is responsible
