The European Chemical Industry Council (Cefic) and the European Process Safety Centre (EPSC) invite you to the International Conference on Process Safety Performance Indicators in Brussels on 31st January and 1st February 2012.

The event builds upon Cefic Guidance on Process Safety Performance Indicators launched in 2011 and the chemical industry's ongoing commitment to Responsible Care.

International Conference on Process Safety Performance Indicators

31st January-1st February 2012

Sheraton Hotel Brussels Airport - Zaventem

Tel.: +32 2 710 80 00—Fax +32 2 710 80 80—www.sheratonairport.be

The conference aims to support companies and industry associations in driving continuous improvement in process safety. Indicators help high-hazards operators to stay in control of their risks. For events with low probability but high consequences, this means monitoring not only actual losses of containment (lagging indicators), but also activities essential to asset integrity (leading indicators).

Participants will learn from several industry speakers about the development and implementation of Process Safety Performance Indicators and the journey to zero losses.

HAVE YOUR SAY!

In breakout groups, delegates will be urged to give their views on the strategy going forward for the successful integration of process safety into operational management.

PARTICIPATION FEE: € 300 EX. VAT
