

Healthy Workplaces campaign on safe maintenance

Cefic joins EU-OSHA as official partner

Maintenance is crucial for the high standards of safety and health in the chemical industry.

The European Agency for Safety and Health at Work (EU-OSHA) has made safe maintenance the focus of its 2010-11 pan-European Healthy Workplaces Campaign. Its aim is to raise awareness of the importance of maintenance in European workplaces, and of the risks if it is not carried out properly.

The campaign is coordinated by EU-OSHA and its partners in the 27 EU Member States and beyond.

Cefic has joined EU-OSHA as an official campaign partner: "Maintenance is crucial for the high standards of safety and health in the chemical industry. We therefore welcome OSHA's Healthy Workplaces Campaign 2010-11, and will actively promote it through our Responsible Care initiative in the chemical industry and with our partners in the value chain", explains Cefic Director General, Hubert Mandery.
